## Production sites

As Germany's largest aluminum producer, we are close to our customers with four trading offices and five production sites: twelve hours every trading day in Essen, Düsseldorf, Berlin and Turin, as well day-in, day-out, around the clock, at our production plants.

In the course of the 26 years since TRIMET was established, we have invested more than €480 million in the technically perfecting and upgrading our plants at the sites. Over the same period, the number of employees has grown to around 1 900; some 120 of these are trainees.

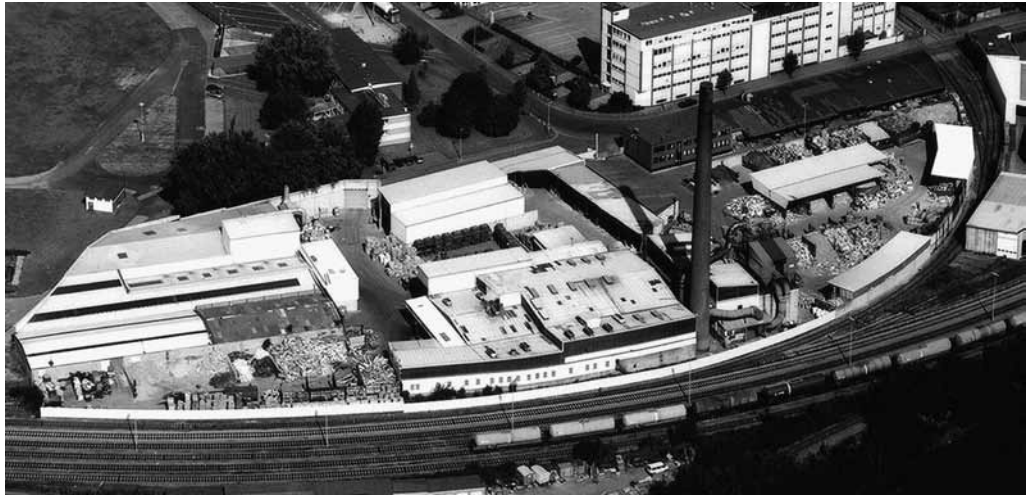

Thanks to this expansion, we are making a substantial contribution at the sites of the plants to the flourishing development of the municipalities, and are good neighbors to the people in the vicinity of the plants.
